

M MOHAMED IMRAN

UNDERGRADUATE AT SINGAPORE MANAGEMENT UNIVERSITY

Bachelor of science (information Systems)

Year 2

SUMMARY

Currently pursuing my bachelors degree at Singapore Management University. I am highly interested in front-end development, web design, and digital user experiences. Curious about how websites are built, how users interact with digital interfaces, and how SEO, performance, and accessibility impact visibility and engagement. Actively exploring web technologies and eager to learn and contribute to modern, well-designed and search-optimized web experiences.

WORK EXPERIENCE

IT Assistant, Indian Bazaar imports & Exports Pte Ltd. **Jan 2024 - Jan 2025**

- Provided basic help with IT needs and requirements of the company to keep it up to date such as switching of company book keeping from physical to online

PROJECTS

SMU Web Application Development 2 Project **Jul 2025 - Nov 2025**

- Built a responsive Vue.js web application styled with Bootstrap and custom CSS, integrating five third-party APIs and Firebase backend services (authentication, database, hosting).

SMU Interaction & Design Programming Project **Jul 2025 - Nov 2025**

- Designed the front-end interface of a running app using Figma, applying UI/UX principles and custom design elements to create an intuitive user experience.

CERTIFICATIONS

Google Digital Marketing & E-Commerce Profession Certificate **Issued Jan 2025**

- Covered digital marketing fundamentals, customer journey, SEO/SEM basics, and online store management.

Google UX Design Profession Certificate **Issued Dec 2024**

- Covered user research, wireframing, prototyping, and creating responsive designs in Figma.
